

"Porch Song" Lyrics

Written by Marcy Each, Sean Carter, and Jennie Lee Riddle

Verse 1

We could feel the stars watching over us / just a wishin'

It was like the whole world stood still / just to watch us
swingin'

And you thanked the breeze / as you pulled me close

While we dreamed all night / of what the future holds

Chorus

If I've got you / than I'm happy

My heart is full and worry free

It's plain and simple / ain't complicated

Just me and you and that old porch swing

Verse 2

When did we begin all this / keeping up with the Jones'

We don't need the white trim / or the picket fence or the roses

It may look greener / on the other side

But it won't be sweeter / that that summer night

Chorus

If I've got you / than I'm happy

My heart is full and worry free

We made this whole thing / too complicated

Just take me back / to that old porch swing

Bridge

Let's just slip away

To that old familiar place

Ending

Let's keep it simple / don't complicate it

Just me and you / and that old porch swing
